Cultivating a vibrant and diligent approach as a Front-End Developer, dedicated to designing captivating and intuitive web applications that enhance user interaction and satisfaction. Targeting opportunities in a remote role to contribute to creating responsive, user-friendly interfaces and continuously advance skills in modern web technologies while collaborating with teams to drive project success.

PROFILE SUMMARY

- **Focused Front-end Developer** with **6.5+ years** of experience in building dynamic, scalable, and responsive web applications using **React.js**, **Next.js**, **JavaScript**, and modern front-end technologies; specializing in crafting intuitive **user experiences** that drive engagement and satisfaction.
- Currently working as **Senior Software Developer** at **India Take One Productions**, leading **front-end architecture**, managing **production deployments**, and mentoring a team to maintain high-quality standards.
- Proficient in **Next.js**, leveraging **server-side rendering** and **static site generation** for **SEO-friendly, performance-optimized applications**, and staying up-to-date with the latest **web development trends**.
- Proven leadership in guiding junior developers to enhance their skills while ensuring optimal project delivery; experienced in collaborating with cross-functional teams to align development efforts with business objectives.
- Hands-on experience in designing and implementing **UI/UX** using **HTML5**, **CSS3**, and **JavaScript** to create visually appealing, fast-loading, and mobile-friendly applications.
- Exposure in delivering **production-ready solutions** in **Agile environments**, with experience at top-tier companies like **Deloitte**, **India Take One Productions**, **ESK Technologies**, and **Ezimax**, consistently exceeding client expectations.
- Proven skills in leading the **development lifecycle**, ensuring seamless integration with back-end systems, mentoring the team, optimizing performance, managing deployments, and collaborating with stakeholders to meet project goals.

CORE COMPETENCIES

Front-End Development
Performance Optimization
Software Architecture
Code Refactoring & Quality

Agile & Scrum Methodologies
Responsive Web Design
User Experience Design

Cross-Platform Development
Team Leadership & Mentorship

TECHNICAL SKILLS

- React.js
- Redux
- JavaScript
- Next.js
- AWS
- Socket.IO
- Firebase
- Agora
- Ant Design (ANTD)
- Tailwind CSS
- CSS, HTML
- Material-UI
- Git

ACHIEVEMENTS

- Improved application load times through performance optimization techniques, resulting in higher user satisfaction.
- Recognized for exceptional contributions to team collaboration, fostering a positive work environment across multiple projects.

WORK EXPERIENCE

Sep'23 – Present | Senior Software Developer | India Take One Productions (ITOP) | Zillit, Noida

Project: Zillit ([Project Link](#))

Key Result Areas:

- Managing a team of 4 junior developers, guaranteeing the flawless execution of projects while upholding exceptional standards of code quality and overall performance.
- Leading the deployment of code to production, collaborating with team leads to develop project architecture and ensure smooth execution.
- Performing code reviews and delivering insightful feedback to junior developers, fostering an environment of ongoing learning and improvement.
- Working alongside cross-functional teams to gather requirements and translate them into detailed technical specifications for application development.
- Diagnosing and resolving complex technical challenges, enhancing the overall reliability of applications and improving the user experience.

Highlights:

- Designed and constructed Zillit, a pioneering film production management application, using React.js, Socket.IO, Firebase, and Agora to facilitate real-time communication.
- Developed critical modules such as Home, Notice, and Permissions System, integrating advanced features like audio and video calling, group calls, and an SOS emergency alert system.

- Created role-based access control systems to enhance security and promote effective collaboration among project participants.

Jan'23 - Aug'23 | Senior Software Developer | ESK Technologies Private Limited, Remote

Project: Mankind Superman

Key Result Areas:

- Designed and developed comprehensive ERP systems using React.js and Next.js, focusing on strong functionality and intuitive user interfaces.
- Troubleshoot and resolved complex dependency issues in React-based applications, notably improving system stability.
- Worked collaboratively with a diverse team of **10+** members to enhance application performance and optimize the user experience.
- Engaged in regular meetings with stakeholders to gather feedback and implement necessary changes to meet project requirements.
- Contributed to the development of best practices for coding standards and project management.

Highlights:

- Contributed to the development of scalable ERP systems, improved user interfaces, and enhanced team collaboration, leading to increased client satisfaction and system performance.

Jul'22 - Jan'23 | Senior Software Developer | Deloitte Consulting India Private Limited, Gurugram

Project: Digital Sansad ([Project Link](#))

Key Result Areas:

- Engaged in regular communication with clients to gather requirements and provide updates on project progress.
- Leveraged leadership capabilities to optimize project execution, ensuring milestones were met on time and project deadlines were consistently adhered to.

Highlights:

- Built a robust Content Management System (CMS) website for the Parliament of India using Next.js and React.js, ensuring full compliance with government standards.
- Created **over 40** dynamic web pages, collaborating with a team of **more than 35** members to deliver a cohesive and functional product.

Jul'21 - Jun'22 | Front-end Developer | EziMax Technologies Pvt. Ltd., Remote

Key Result Areas:

Project: [Manage Petro App](#), [Astro Wize Astrologers](#)

- Developed comprehensive ERP systems utilizing React.js and Next.js, ensuring robust functionality and user-friendly interfaces.
- Addressed and resolved intricate dependency issues within React-based applications, enhancing overall system stability.
- Collaborated with a diverse team of over 10 members to optimize application performance and user experience.
- Participated in code reviews, providing insights and suggestions for improvement to enhance code quality.

Highlights:

- Contributed to the development of modular applications, collaborated with marketing for user feedback analysis, and enhanced user engagement, showcasing a strong focus on user-centric development.

PREVIOUS EXPERIENCE

Feb'21 to Jul'21 | Front-end Developer | Insurgics Health Solution Private Limited, Remote

Highlights:

- Developed a comprehensive CRM system for Momkidcare, ensuring a user-friendly interface and robust functionality.
- Addressed various dependency issues within React.js, enhancing overall system stability and performance.
- Collaborated with cross-functional teams to gather requirements and implement necessary changes.

Jun'20 to Nov'20 | Front-end Developer | Acoustte Digital Services Private Limited, Remote

Project: [Makemysite](#)

Highlights:

- Developed a comprehensive CRM platform for Makemysite, ensuring a user-friendly interface and robust functionality.
- Collaborated with cross-functional teams to gather requirements and implement necessary changes.

Mar'20 to Jun'20 | Front-end Developer | NugenI Infotechnology Private Limited, Noida

Project: Quick Test

Highlights:

- Contributed to the development of Quick Test, a CRM solution, ensuring a user-friendly interface and robust functionality.
- Collaborated with cross-functional teams to gather requirements and implement necessary changes.

May'18 to Oct'19 | Front-end Developer | Vitazia Technologies Pvt. Ltd., Delhi

Project: EPRO

Highlights:

- Developed comprehensive ERP solutions utilizing React.js and .NET, ensuring robust functionality and user-friendly interfaces.
- Collaborated with back-end developers to optimize API calls, resulting in a reduction in load times and improved application performance.

EDUCATION

- **Bachelor of Computer Applications (BCA)**, Dr. Rammanohar Lohia Avadh University, Faizabad | 2014
